

# BAADER MORPHEUS® 76°

## SPRING SALE (March 21st – April 15th)

- ✓ **FULL FIELD SHARPNESS:** The ultra-sharp 76° undistorted flat field is unsurpassed by any other modern wide field eyepiece. Also on-axis sharpness and contrast rivals even the best planetary eyepieces.
- ✓ **LONG EYE RELIEF AND OPTIMIZED FOR BINO-VIEWING:** ~ 20mm of eye relief provides that famous spacewalk feeling, incredibly impressive with bino and both eyes.
- ✓ **HARD ALUMINIUM ALLOY** with industrial quality UV-stabilized anodizing surrounds a set of 8 lenses with one ED- and two Lanthanum elements.
- ✓ **2" AND 1 1/4" NOSEPIECE** in one eyepiece of 55mm max outer diameter, supports bino-viewing even for kids.
- ✓ **PHOTO-/VIDEO-ADAPTATION:** all Morpheus® eyepieces make superb imaging projection optics with the M43 thread.

**AND MANY MORE FEATURES – DISCOVER IT YOURSELF!**

For the limited promotional period we offer **all focal lengths of the Morpheus® eyepiece series at ~20% reduced price.**
